SUMMARY

Software engineer with 3+ years of experience building production mobile apps (React Native, Android and iOS) and web products (React, Next.js, Node.js). Experienced in REST API integration, state management, payments, and white-label architecture. Owns features end to end, from requirements through implementation, testing, and release.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, PHP
Mobile & Frontend	React Native, Expo, React, Next.js, Redux Toolkit, Tailwind CSS
Backend & Data	Node.js, Express, REST APIs, Firebase, Firestore, MySQL, MongoDB
Tools	Git, GitHub, Jest, Postman, Figma, code review

PROFESSIONAL EXPERIENCE

Mobile App Developer | YIP Online, Remote (Lagos) Nov 2025 – Present

- Build and maintain React Native apps for Android and iOS, including Rejoyly, a peer-to-peer marketplace live on the App Store and Google Play.
- Built a reusable white-label setup so one shared codebase supports customised deployments for multiple brands.
- Integrated REST APIs across authentication, product, cart, and checkout flows, including state handling and validation.
- Work with product, UI/UX, and QA to test, debug, and ship client-facing releases.

Freelance Mobile & Full Stack Developer | Bincom Dev Center, Remote (Lagos) Feb 2024 – Present

- Built eMigr8 Visa Companion with React Native and Expo, live on the App Store and Google Play: visa routes, coaching, partner marketplace, premium content, and in-app subscription billing.
- Built the supporting React and TypeScript web apps, including the admin dashboard and partner and affiliate portals.
- Integrated third-party APIs, took part in code reviews, and worked directly with the client to gather requirements and demo completed features.

Full Stack Developer | Pyramid Tech Lab, Remote (Lagos) Jan 2025 – Jun 2026

- Built AlutaMarket (alutamarket.com): seller inventory management, product discovery, ordering, reviews, and payments.
- Developed Node.js services for authentication and product management, with Firebase for storage and real-time sync.
- Integrated a payment gateway and built responsive React and Tailwind CSS interfaces for mobile-friendly commerce.

Frontend Developer | D-Degree Digital Hub, Lagos Jan 2023 – Dec 2024

- Built responsive, accessible frontends with maintainable component structure, from UX wireframes and prototypes.
- Took part in code reviews and cross-team delivery to keep frontend code consistent and releases stable.

SELECTED PROJECTS

eMigr8 Visa Companion | React Native, Expo, TypeScript, Firebase
Visa guidance app live on the App Store and Google Play, with coaching, partner marketplace, and subscription billing.

Rejoyly | React Native, Expo, TypeScript, Firebase (YIP Online)
Peer-to-peer marketplace for children's items, live on the App Store and Google Play, with real-time chat, offers, and location-aware discovery.

SabiGuy | React Native, Expo, Paystack, Socket.io
Two-sided services marketplace with bookings, Paystack payments, wallet, KYC, and real-time chat (in development).

ThryftUp Store | React Native, Redux Toolkit, Firebase
White-label multi-brand store with configurable branding, product catalogues, and unified checkout.

AlutaMarket | React, Tailwind CSS, Node.js, Firebase
Full-stack marketplace for seller inventory, ordering, payments, and reviews. alutamarket.com

EDUCATION

Higher National Diploma, Computer Science | Harvade College, Nigeria 2020 – 2022

National Diploma, Computer Science | Allover Central Polytechnics 2015 – 2017
